EIGHT PAGES.

TUESDAY - - - OCTOBER 1

The governor of Texas appears to be shifting around to get a front seat when the big fight does come off.

There may be some satisfaction in the thought that the ubiquitous microphone regards this weather as "quite a frost."

With the handsome and dramatic appearance of Doc Norton on the stump the democratic campaign will be a nice thing to look at anyway.

Lord Danraven has sailed for home in an American yacht, leaving Valkyrie here. This is the first knowledge that Danraven was in a hurry to reach home.

The interview with Hon. John C. New on Gen. Harrison's candidacy is causing almost as much comment as might have been expected had it contained any information.

The commercial traveler is beginning to take up his part of the Ohio campaign with all his old-time vigor. What he doesn't know about the direction of the political wind isn't worth relating.

The Peary expedition was not without its fruits. The lieutenant brings back the information that Eskimo women are the pioneers in bloomer wearing and that they are not given to "scolding."

Our friends from out of town who only get in to see us once a year—fair week—may be impressed with the fact that Marion is still "torn up," but they should be given to understand that we're improving.

Treasurer Cley, of Ironton, who embezzled the funds of the county and city to the amount of \$27,342.52, has returned from West Virginia and given himself up to the authorities. His thoughtlessness in coming back now puts his friends under the painful obligation of working up sympathy for him, so that he may get off easily.

The Findlay Union, a democratic weekly paper edited by J. Wilks Brown, a Brice candidate for the legislature, has created considerable political consternation by announcing that it will not support the democratic county ticket, charging a collusion between these officers and demanding a change in the interests of the people. Politicians think the step is taken at the orders of Brice. At any rate the editor is still strongly supporting himself for the legislature.

October Cosmopolitan.
 Rudyard Kipling makes his last appearance as a teller of Jungle Stories in The Cosmopolitan for October. "Mowgli leaves the jungle forever," and the curtain is drawn over one of the most charming concepts in literature. In the same number in which Mowgli makes his final adieu, appears for the first time before an American audience, the now famed Richard Le Gallienne in a play for relaxation under the title "The Firestorm of Man." A very important paper on "Fate," "Fate," "Fate," is contributed to this number by Professor E. J. And among the dry-tellers are Harkinson Smith and Rogers. No more beautiful work has ever appeared in any magazine than the marvelous illustrations of Calcutta used as frontispiece and accompanying the prose poem by Mrs. Carolyn Drake—who is said to be Kipling's favorite artist for his jungle stories. Carter, Board, Osterlund, Demman and Kembo are among those who contribute a wealth of illustrations to this number. The Cosmopolitan announces that it will begin the publication in January of The "Agri-Culturist." It is treated Magazine, to be the equal of The Cosmopolitan, but containing from sixteen to twenty pages by the ablest agricultural writers of the world upon subjects of importance to the agriculturist, horticulturist and stock-growing interests.

Lots of Typhoid Fever.
 The local physicians report numerous cases of typhoid fever throughout the county. There are also many cases of the disease in this city.

Nearly every day the physicians report new cases, and at present there seems to be an epidemic of it in all parts of the county and city.

ORDER THAT NEW SUIT NOW!

THEIR OWNERS' SUIT.

THE time is at hand when you are out of date with a new suit. The summer suits simply won't do, and the old suit of last fall is a back number.

They are cutting them very different this fall, according to Fashion's decree. Pantaloon are notably changed. Every man who wants to appear neat and well dressed and who doesn't? must have the new fall cut and the new fall fabrics. The nice thing about it is that you can be well dressed for as little money as you spend for shabby clothing.

THE weather suggests overcoats. The almanac does, too. What's the use of shivering or risking injury to health every time the temperature falls. A good overcoat is your safe-guard, and one of our coats completes the outfit of a well dressed man.

There are so many things to select from that it's no use to particularize. The styles are not extreme, so this year's coats will serve several seasons.

Men who have watched closely will tell you that good, honest, well-fitting, made-to-order overcoats are much the cheapest in the long run and look three times as well.

We would be pleased to show you our line of overcoatings and suitings. As we have remarked before, we have never shown so handsome a line throughout, and the prices are very moderate for high grade, tailor made goods.

We refer strangers to the well dressed men of Marion, who are our continued and always satisfied customers.

Do I Sell Stoves? Well! I Reckon I Do!!

Just as nice a variety as any exclusive stove store in Marion, and just as good stoves, but they don't cost you nearly so much money. For instance, you pay \$15 to \$20 for a coal cook, while my price is \$12 to \$15. You pay \$14 to \$16 for a soft coal heater, while I only charge you \$10 to \$14. My goods are right, my prices are low and you get better treatment at my store than at any other store.

FURS!

TO ADD INTEREST TO
CONTEMPLATING FUR WRAP
BUYERS.

We are informed by a representative of New York Fur House that he expects to be in our city on Tuesday, October 1st, with his line of furs—Fink, Beaver, Otter, Martin, Electric Seal, Wool Seal, furs of all kinds. If you have bought come and see if you were rightly treated. If you intend to buy and are not quite ready come and get posted. If you want to buy right away, come look, and if you can be suited we will be glad to sell you your garment.

UNDERWEAR.

The entire left side of our first floor is devoted to the sale of Hosiery and Underwear for ladies, gents and children. This is the most complete underwear stock in this part of the state. The prices are much lower than elsewhere. Supply your hosiery and underwear needs here.

Millinery Reception Continued.

Months of gathering and getting ready. Months of study and hard work and our reward is ample in the seal of your approval. No more exacting and discriminating audience could pass upon the merits of the exhibition than our own Marion public.

The reception continues this entire week. Come.

COMMITTEE.

NOT SATISFACTORY

The Asphalt Work Delayed to Get the
Plant in Better Order.

Asphalt laying on Church street is temporarily suspended because the new plant is not equipped satisfactorily to the contractors, and because the asphalt work is not satisfactory to the inspectors and council.

The mixture of the materials has not reached the degree of perfection that is desired, so new boilers, for melting the gum, are being made to add to the plant.

The coating of asphalt seems to lack tenacity, and a few cracks have developed. These things have led to a great deal of unnecessary condemnation. The fact that there is difficulty to get new work perfectly started and the fact that the best Trinidad asphalt sometimes shows cracks, without calling forth everlasting condemnation, seems to be overlooked. Church street will be well done or not at all, that is certain. There is no occasion for great haste to create a panic.

NOT MUCH BUSINESS

WAS THERE BEFORE THE CITY COUNCIL MONDAY NIGHT.

The Leader Street Extension Ordinance Taken Up and Passed—Council Wants Paving hurried Along—Business of the Adjourned Session.

The adjourned session of the city council was called to order Monday evening shortly after 8 o'clock. The meeting was for the particular purpose of taking up the Leader street extension business, which is a very important matter from the fact that the street is to be built under the railroads, entailing considerable expense. Messrs. A. Mordecai, chief engineer, and W. L. Talcott, general attorney for the Erie Railway company, were present at the meeting, having come down from Cleveland to give personal attention to the matter on behalf of their company.

All members of the council were present, the minutes of the previous meeting were read, and street and alley business was at once taken up.

Delaware avenue property owners asked for the lowering of the grade of that street, near Fred Haberman's residence, before the paving is put down. The petition was referred to the street and alley committee.

Market street property owners remonstrated against a stone sidewalk that had been ordered for that street. Some nineteen persons had signed the paper, leaving Councilman Roberts the only property holder on the street who wanted the walk. A motion was made to place the petition on file, but this was defeated, and the matter was referred to a committee of the whole council, and the ground was to be looked over. The walk will likely not be built.

The ordinance for opening and extending Leader street was introduced, and at once given the three formal readings. There was little discussion, the members apparently understanding the matter quite thoroughly, and when it came to adoption Berry cast the only negative vote. The extension of the street has been discussed for three or four years and action delayed from time to time, notwithstanding the recognized importance of the improvement. The difficulty, however, of getting over or under the railways without making a dangerous crossing, has been a hindrance. With the railway companies finally coming to an agreement in regard to a tunnel beneath the tracks this difficulty is overcome.

Claim ordinance No. 14, which included the monthly payroll, was passed. The payroll was allowed a week ahead of time in order to give the city employees fair money.

Mayor Nichols made his report to the council covering the period of his term of office, from April 18 to and including September 30, which made the following showing: Collected from drays and teamsters, \$274.75; fines, \$222; transient licenses, \$30; total, \$526.75. Total amount paid to treasurer, \$497.75; balance on hand to date, \$29.

Engineer Bowen read a communication from Mr. Jones, manufacturer of the Jones paving block, stating that he had material on hand ready for shipment to this city at any time. Members of council showed a disposition to have the preliminary work of paving on south Main street to begin at once.

Dickerson introduced a resolution for fifty firemen's badges, not to exceed the cost of 75 cents each. It was adopted. The purchase is made at the suggestion of Chief Fies. The street railway company also suggested something of the kind so that the motor men could identify the minute men who are allowed to ride free when going to or coming from a fire. Heretofore everybody who boarded the cars have passed themselves off as firemen to the exclusion of those who were members of the company. Council adjourned.

Elected Directors.

The Marion Mirror company met at the home of George L. Padgett Monday night and elected a board of directors as follows: James H. Vaughan, George L. Padgett, M. E. Sweeney, G. B. Scofield, Fred Haberman, J. G. Fairbanks and W. H. Schaffner. The directors met at the Mirror office, this afternoon, and organized by electing Geo. L. Padgett, president, J. H. Vaughan treasurer and general manager, and Geo. B. Scofield, secretary, for the ensuing year.

WELL! WELL! WELL!

WHO SAID WE WERE NOT TO HAVE A
GREAT FAIR

More Entries Made Than Ever Before in
the History of the County—The Various
Departments Will Be Overflowing—The
Speed Trials Will Be a Standard.

Who said we were not to have a fair, and a good one? If you can find the man just take him up to the grounds and he will be convinced of his awful error.

In the history of the agricultural fairs of Marion county—and the county can flatter itself on its fairs—the prospects never were so bright for a great success in every way as they are today. The entries were never so many nor the exhibits so fine.

Just think of it! Forty-six hundred entries up to last night more than have ever before been made in the history of the association.

A trip to the grounds this morning developed the fact that the work of making preparations for the great exhibit had been carried on all night and the hustle and hurry was still going on early this morning and will probably continue until late tonight or even up to tomorrow morning.

A stroll around the grounds showed how proud Marion county can be of its live stock, not only as to quality but also as to quantity. In the sheep department all the stalls are engaged and extra room is being made for the sheep exhibit in the hog department, which threatens to be a little less extensive than usual owing to hog cholera. The horses are coming in from every direction, singly, in pairs, by fours and in droves, forty-five entries of blooded stock being made from Richland township alone.

Up in the northeast corner of the grounds the "speeders" are stabled and the presence of dozens of high class track horses insures races that will be interesting to the average spectator and experienced horsemen as well. Don't let anyone tell you the races won't be up to date, for it's all a mistake. There will be horse races for your life, to say nothing of the bicycle races, such as have never been seen in Marion heretofore.

In the cattle department, as in that of the sheep, the stalls have all been spoken for and most of them are already filled with as fine specimens of animal life as ever stood on hoofs.

But it is in the horse department that the heart of the average fair-goer will be made glad, for a finer exhibit was never made than that, which will be presented this year. The majority of the stalls are already occupied and the numerous entries in this department will make it necessary for those in charge of the fair to hustle in order to find room in which to stable the exhibits.

The exhibits in the halls are just being placed in position and, of course, do not yet show how elaborate they really are but enough entries are already on the grounds and in place to indicate that the art hall, agricultural hall and transportation hall will all be crowded to overflowing with rare entries.

In the machinery department engines, threshers, farm machinery of every kind, and mechanical contrivances without number are in position ready for the opening of the gates for public inspection, and the size of the present year's exhibit in this department can only be appreciated when it is stated that the exhibits of former years have been but as prophecies of that which is on the grounds today.

Aside from the racing and the exhibits which will be offered for the amusement and instruction of the visitor, the young folks will rejoice in the presence of candy and popcorn stands without number; shows, merry-go-rounds, and all those contrivances for the amusement of the young, and quite frequently the old as well, which are common at agricultural fairs.

Summed up as a whole the fair is bound to be an artistic success and if the present magnificent weather will hold out for the week, and the indications are that it will, a financial success is assured as well.

All things point to this fair as the banner meeting in the county's history and as has been said before, when you meet the chronic grumbler who always talks to the contrary if your conscience will not allow you to kill him, take him out to the grounds and he will be convinced of his error, if of anything he is capable of being convinced.
